**Quality & Performance oil**

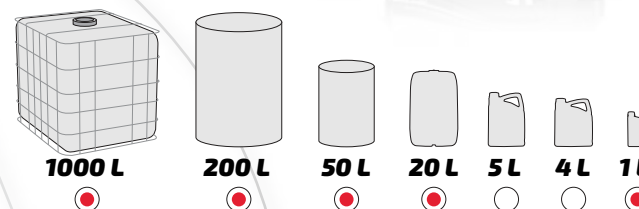

### Astar Gptech Racing 10w60

**Fully synthetic with PAO**

Fully synthetic 4T engine oil specially designed to provide the most stringent requirements and ensure outstanding performance in terms of mileage, premature wear protection, lubricant savings, protection against high temperatures, great cleaning power, etc...

API SM - JASO MA2 (T903-2006)

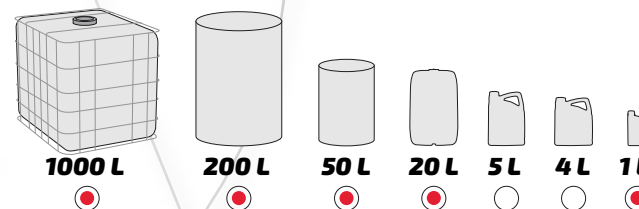

### Astar Gptech Racing 10w50

**Fully synthetic with PAO**

Fully synthetic 4T engine oil specially designed to provide the most stringent requirements and ensure outstanding performance in terms of mileage, premature wear protection, lubricant savings, protection against high temperatures, great cleaning power, etc...

API SM - JASO MA2 (T903-2006)

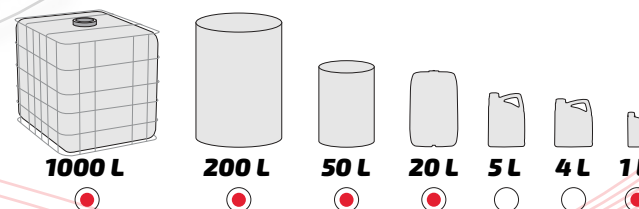

### Astar Gptech Racing 5w40

**Fully synthetic with PAO**

Fully synthetic 4T engine oil specially designed to provide the most stringent requirements and ensure outstanding performance in terms of mileage, premature wear protection, lubricant savings, protection against high temperatures, great cleaning power, etc...

API SM - JASO MA2 (T903-2006)

Quality & Performance oil

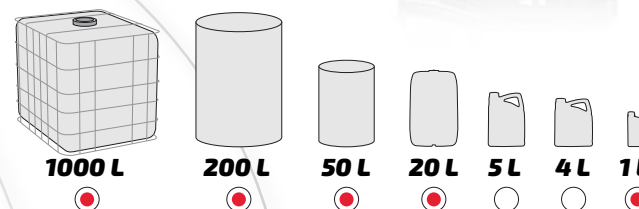

### Astar Gptech 4T 15w50

**Fully synthetic**

Synthetic 4T engine oil specically designed to provide the most stringent requirements and ensure outstanding performance in terms of mileage, premature wear protection, lubricant savings, protection against high temperatures, great cleaning power, etc...

API SM - JASO MA2 (T903-2006)

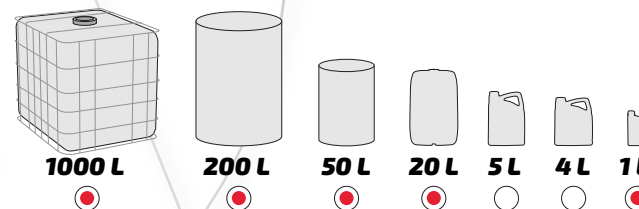

### Astar Gptech 4T 10w40

**Fully synthetic**

Fully synthetic 4T engine oil specically designed to provide the most stringent requirements and ensure outstanding performance in terms of mileage, premature wear protection, lubricant savings, protection against high temperatures, great cleaning power, etc...

API SM - JASO MA2 (T903-2006)

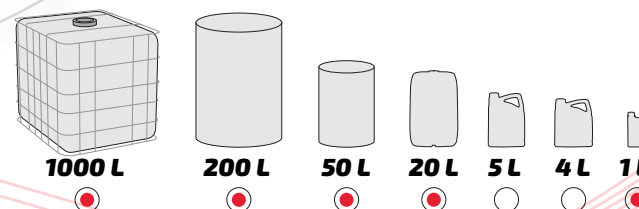

### Astar Gptech 4T 5w40

**Fully synthetic**

Fully synthetic 4T engine oil specically designed to provide the most stringent requirements and ensure outstanding performance in terms of mileage, premature wear protection, lubricant savings, protection against high temperatures, great cleaning power, etc...

API SM - JASO MA2 (T903-2006)

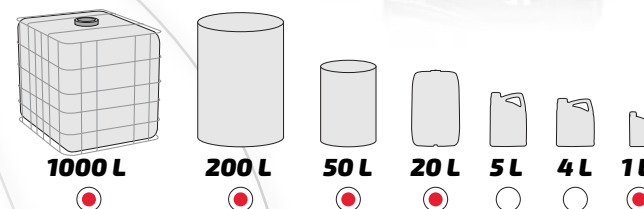

### Astar Classic 4T 20w50

#### Mineral

It is a high quality multigrade mineral lubricant with the most modern additives from market. With this lubricant composition we obtained a lubricant with very good performance for the latest generation of 4-stroke engines of motorcycles.

API SL - JASO MA2 (T903-2006)

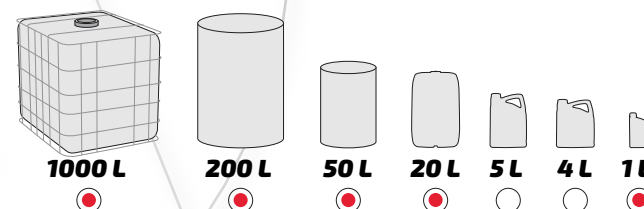

### Astar Gp Estertech 5w50

#### Fully synthetic with esther

Fully synthetic with ester saturated tech racing 4-stroke motoroil. Specially formulated for very severe applications and very high temperature.

API SM - JASO MA2 (T903-2006)

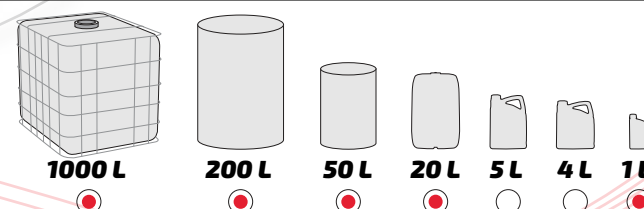

### Astar GpTech Evo 2T

#### Fully synthetic with PAO

Formulated ensuring total protection against wear and friction. Excellent engine cleanliness. Good protection against high temperatures

JASO M345 FD - ISO/L/EGD - API TC+ - TISI - APRILIA DFI

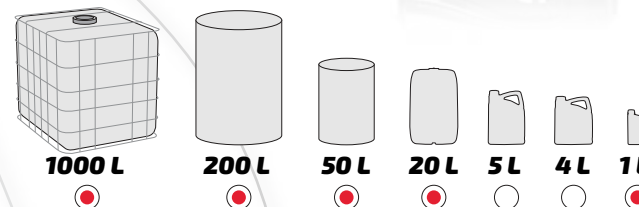

### Astar Gptech 2T

#### Synthetic

High quality synthetic oil for air cooled 2-stroke engines. Very high lubricant power.

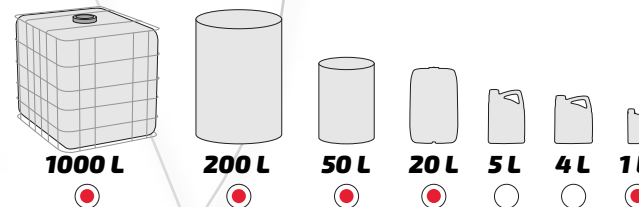

JASO M345 FC - ISO/L/EGD - API TC - TISI

### Astar Gptech Classic 2T

#### Mineral

It is a mineral lubricant for two-stroke engines of motorcycles. Its low viscosity facilitates lubrication of all engine parts, and offers good protection and engine cleanliness, preventing the formation of deposits.

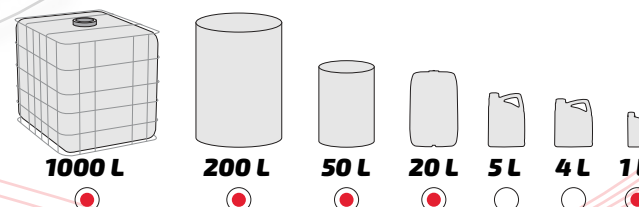

JASO M345 FB - API TC

### Astar Gptech Gear 75w90

#### Fully synthetic

Fully synthetic lubricant designed to the gearbox, cardan and clutch fitted in motorcycles and scooters.

API GL -5

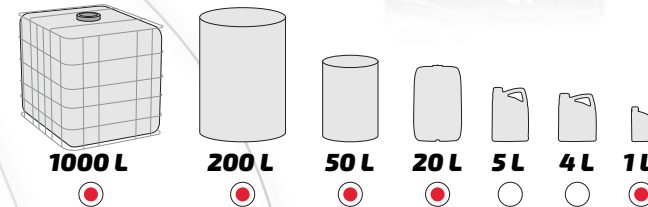

### Astar Gptech Fork Sae 5

**Fully synthetic PAO**

100% synthetic fluid for premium quality telescopic forks and shock absorbers of high performance motorcycles.

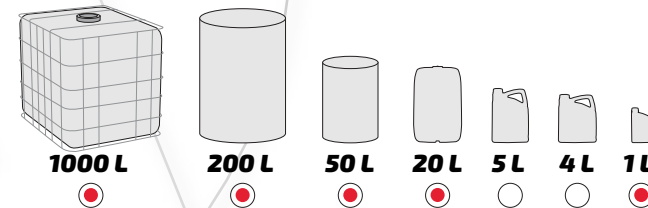

DIN 51524 Parte 2

### Astar Gptech Fork Sae 7.5

**Fully synthetic PAO**

100% synthetic fluid for premium quality telescopic forks and shock absorbers of high performance motorcycles.

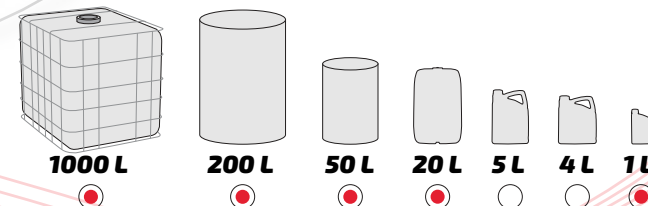

DIN 51524 Parte 2

### Astar Gptech Fork Sae 10

**Fully synthetic PAO**

100% synthetic fluid for premium quality telescopic forks and shock absorbers of high performance motorcycles.

DIN 51524 Parte 2
